WORK EXPERIENCE

Software Engineer
Viztech Systems Private Ltd
08/2021 - Present

- Working as a software developer trainee.

PROJECTS

Swagger API project
- Designed and developed APIs using swagger tool.
- Worked with YAML, a swagger used to describe the API 's.
- Created and designed RESTful APIs using swagger annotations.
- Involved in bug fixing.
- Used version management tools like GIT.

Pytenable
- Upgraded the code from python version 2 to python version 3.
- Created test cases using python.
- Tested python files using pytest framework.
- Used IntelliJ IDEA for creating test cases.
- Used git repositories for code management.

ReactJS based E-commerce website
- Used ReactJS for templating for faster compilation and developing reusable components and managed states using Redux.
- Used NPM and worked in using React JS components forms, hooks.
- Used React router to turn website into single page website.
- Adopted MongoDB for data storage, designed different schemas and data access services to communicate with MongoDB.
- Involved in design and development of Resful API and services to interact with data storage layer.
- Used NodeJS and Express framework to build server side logic, and applied with middlewares to handle http requests.
- Extensively used Git for version controlling and regularly pushed code to Github.

EDUCATION

S.S.C.
P. Jog High School, Chinchwad Pune, 2014

H.S.C.
Gayatri junior college, Moshi Pune, 2014-2016

Bachelor of Computer Engineering
Savitribai Phule Pune University, 2016-2021, CGPA 7.09

SKILLS

Core java   Python   HTML   CSS   Bootstrap
JS   ReactJS   Wordpress

ACHIEVEMENTS

Published a research paper in my academic year.

Organized a event on college fest.

CERTIFICATES

C Programming
Grade A, 2017

Core Java (from Seed Infotech)
Grade B+, 2018

ACADEMIC PROJECT

Document Digitization
I and my team had implemented a document digitization project using HTML, CSS, Java, JS, JSP, Bootstrap, MySQL on Netbeans IDE. This facility has been provided to users to help them digitally store their documents like RC, DL, medical reports, certificates, etc. electronically. Our system has reduced paperwork and eliminated the use of Xerox copies of original documents. Users can rapidly access documents anywhere/anytime. And because of the document encryption provided by our system, users' documents are secured on our website.
